~~SECRET SENSITIVE~~~~EXCLUSIVE EYES ONLY~~SECRET

April 5, 1973

FROM: Richard T. Kennedy *RTK*
 TO: Winston Lord
 REF: Your Inquiry on the US/South Korean Exercise

The exercise in question is "Golden Dragon 73." The last similar exercise was held April 7 - 14, 1972. The current exercise, which will be conducted on the southeast coast of Korea, involves the following:

US

- 1 battalion landing team
- 1 composite helicopter squadron
- 2 escort ships (DDE)
- 1 ocean tug
- 1 oiler
- patrol aircraft as available

ROK

- 1 battalion landing team reinforced
- 1 company (air dropped)
- 2 LST's
- 2 minesweepers
- a limited number of additional support ships

This is substantially scaled down from the original plan. As you will note in John Holdridge's memo, which is attached, Brent approved the scaled down exercise on March 19 after it had been discussed with Habib.

When this exercise was looked at we also looked at the full list of exercises that were then planned for the next 12 months and requested that those proposed for the ROK and also for the ROC be re-examined and recommendations forward for consideration before decision.

Warm regards.
